

PLENTY OF COAL WITHIN TWO WEEKS

Committee Assured That
We Will Get Relief.

It is expected that within two weeks the demand of Washingtonians for coal will be satisfied in a large measure. The action of Second Vice President Henderson, of the Reading Road, yesterday in informing the Washington coal committee of his purpose in supplying the city with larger shipments than heretofore, and in further advising them as to about the amount that could be expected for the next three months has greatly cleared the situation.

Thomas W. Smith, chairman of the subcommittee in charge of the investigation of local conditions bearing upon the coal situation went to Baltimore this morning to ascertain from J. Hillis & Co., the distributing agents of the Pennsylvania Railroad in this section, the exact condition with reference to that company.

Messrs. Gode, Smith and Lambert returned to the city last night much pleased with the result of their visit to Philadelphia and firmly convinced that Washington will receive every consideration at the hands of the coal operators.

Practically all of the local institutions have been supplied with enough coal for their immediate needs. The Soldiers Home has just received a sufficient amount to keep the old soldiers warm for a time and the hospitals and asylums are being cared for by the local dealers who gave them the first consideration.

General Sternberg, chairman of the Citizens' Relief Committee, has called a meeting of that committee for Saturday afternoon at 3 o'clock, for the purpose of considering the coal situation with reference to the poor.

CHARGED WITH LARCENY.

Joseph Whiting was arrested in Baltimore yesterday by Detectives Tyson and Trumbo, charged with stealing a bicycle. He was released from a jail in Baltimore yesterday, and was immediately taken in custody by the local detectives.

SIX MONTHS IN JAIL.

Sidney Davis, colored, who was arrested in the White Lot Tuesday night, was sentenced to six months in jail yesterday for stealing a large quantity of wire from the Potomac Electric Light Company.

STRUCK WITH HAMMER.

William Burnett was accidentally struck in the head with a sledge hammer while working in the Patent Office last night. He continued work for over two hours and then walked to the Emergency Hospital to have the wound dressed.

FRANCIS MORRISON WANTS DIVORCE FROM HIS WIFE.

Francis Morrison in a petition for divorce filed yesterday against Emma J. Morrison, on statutory grounds, says that on February 25 last she entered into a pretended marriage with one George W. Day.

The marriage license record shows that on February 25, 1902, a license to marry was issued to "George M. Day and Emma J. Curtis," and that the ceremony of marriage was performed by Justice of the Peace Bundy.

Mr. Morrison says that his wife entered into a marriage contract with George W. Day before Justice Bundy. The Morrissons were married in Chicago in April, 1891, and came to Washington to reside in 1896. Edward G. Niles is named as counsel for the petitioner.

HOMAGE TO THE SULTAN.

New York Times.

A very striking ceremony takes place every day at the Turkish war office in Constantinople at sunset. At the sound of a bugle bodies of troops march out from all the surrounding barracks. They take up their places in two large hollow squares, with a band close by. The band strikes up "The Sultan's March," and after that the bugles sound and the drums beat a long roll. Then a single bugle sounds: the troops spring to attention, fix bayonets, and arrest arms. Another sound from the bugle, and every man calls out "Padishah," while as the sound dies away each makes the Turkish salaam. Three times the ceremony is performed, after which the band plays a march and the soldiers disappear as quickly as they came.

He will demand a Congressional investigation, and will ask Senator Hanna to help him in the matter. In the House Major Rathbone will look to Congressman Nevin, of Ohio, to support him in his demands.

SENATORS LEAVING TOWN.

In anticipation of probable adjournment tonight until Monday several members of the Senate left town last evening, some going to New York on business and others to their homes. The only committee business to engage their attention today were the sessions of Military Affairs and Indian Affairs. Adjournments over the latter part of the first week's session of the Senate have been so frequent that the practice may well be termed a custom.

THE RABBITS OF AUSTRALIA.

Adelaide Advertiser.

At one time rabbits, when there was practically no demand for their skins or carcasses, cost the Australian squatters hundreds of thousands of pounds annually to destroy, but at present men in the commonwealth who trap them and also capture hares, kangaroos, wallabies, foxes, opossums, and native bears, earn £500,000 annually. Twenty millions of Australian rabbit skins were sold in London last year. They represented a money value of £112,000. Besides, 603 bales containing 1,800,000 skins were sent to France, while there were 2,556,440 frozen rabbits in their furs sent to England from Victoria alone. Thus the trappers in 1901 were responsible for the destruction of over 24,000,000 of rabbits, of the value of nearly £250,000.

SOLD BRASS FILINGS FOR GOLD.

Boston Dispatch to the Baltimore American.

Samuel Brotski, sentenced here today to four to six years, and wanted in Baltimore, Montreal and other cities, has a gold-brick game of the latest pattern. He was sent down today for selling 160 pounds of brass filing to Meyer Cohen in 1894 for \$5,000. He claimed to have been a convict in the Siberian mines; that the captain of his guard fell in love with a beautiful woman, and, after a long courtship, they fled to America. The captain had charge of the 160 pounds of "gold dust" and Brotski was to sell it for fear the Russian government would discover the deserting captain. Brotski has been in Sing Sing for securing \$12,000 by his story in New York, and is one of the slickest operators in his line in America. He is sixty-six years old.

Goldenberg's Remnant Friday

There's a fascination about remnants. The very name implies bargains—and what's more to the liking of any shopper than a genuinely good article at a price that deserves the name of "bargain?"

Remnants here may be different from the others. We speak only of our own bright, fresh goods that the week's selling has brought down to remnant lots and they're often the most desirable goods—and why not—for they're the goods that have sold fastest.

Here's the detail of tomorrow's remnant sale.
